*We look forward to seeing you!*

Support groups are an important place for caregivers – family members, friends, or helpers – to meet and share information, give and receive mutual support, and exchange coping strategies in relation to caring for a person with memory loss. Trained leaders help members learn ways of dealing with the problems they encounter as caregivers.

**Upcoming sessions 2015: November 4 & 18, December 2 & 16**  
*Session on October 21 cancelled. Please attend the Bushwick Center Open House.*
